The Trustees were further advised that there was a balance on hand in the District's account with the Bank of Stockton for BN-15-1 the sum of \$1,129,638.22 and for BN-19-1 the sum of \$1,000,000.00.

ROLL CALL:

Ayes: Trustees Forkel, Neudeck and Ryan  
Noes: None  
Absent: None

Upon Roll Call, the foregoing Resolution was declared unanimously passed and adopted.

The Engineer presented the Trustees with a written report, which included the following:

1. The Engineer reported on the District's participation in the Delta Levee Subventions Program, as follows:
  - A. Fiscal year 2019-20: The District submitted an application in the Program in the amount of \$615,000. DWR has indicated that \$10 million has been approved for program funding for FY 2018-19, consistent with recent years. The District submitted a claim in the amount of \$245,136.13 for the fiscal year.
  - B. Fiscal year 2020-21: The District submitted an application in the Program in the amount of \$615,000. DWR has lowered the Program funding amount to \$12 million for FY 2020-21.

- C. Fiscal year 2021-22: : The District submitted an application in the Program in the amount of \$541,000. DWR has stated that they will be seeking \$10 million for the Program for FY 2021-22.
2. Special Projects: The enhancement component of the Old River multi-benefit levee rehabilitation project is in progress. Maintenance activities will be on-going to promote plant health and longevity.
- The District received an advance of funds for the design of the Directed Action project to rehabilitate the north and south levees. The design is progressing and is moving forward in anticipation of construction. The Engineer is working through various design related issues and are developing the plans and specifications. The District has requested the construction funding from DWR for the project. DWR has indicated their preference is to amend the existing funding agreement to allow for construction rather than issue a new funding agreement.
3. Annual Maintenance: The Engineer advised the Trustees of the current maintenance items that the District is currently tracking.
4. Flood Fight Supplies: The District signed a MOA with Sacramento County to move forward with development of a regional flood fight supply depot. The District has developed a preliminary site layout and is working on the logistics of developing the depot.
5. Five Year Plan: Work on the Five-Year Plan is currently in progress. A draft of the plan has been distributed via email and many of the comments have been incorporated. A draft copy has been sent to DWR staff for review and comment. DWR has extended the expiration date of the funding agreements to December 31, 2021.
6. SB 88: Work under Phase 3 of the measurement experiment has been extended and is currently underway. Phase 3 efforts primarily involve installing 8 additional flange magnetic meters on the water side of the highest use siphons, with at least one flow meter on each island. MWD has received the new equipment which is currently stored on Bacon Island. A pre-bid walk through on Bouldin Island occurred on March 3, 2021. MWD has since identified Gornto Ditching as the selected contractor. MWD and MBK will work with Gornto Ditching to schedule the flow meter installations for Phase 3 of the measurement experiment once the contract is awarded and MWD issues a notice to proceed. MWD and the RDs are in compliance for calendar year 2021 under an approved extension of time. Current direction by MWD is to proceed with strict compliance. Therefore, MBK is currently developing a draft plan for compliance, which will include a combination of flange magnetic meters installed on the water side for the

largest and highest use siphons and alternative measurement methods at the smaller, less frequently used siphons. MWD and MBK met towards the end of March to discuss the draft plan and potential alternative measurement methods. MWD will schedule a follow up meeting to discuss specific plans for each siphon.

Development of the Delta-wide ACP by the Delta Measurement Experiment Consortium to utilize Open ET for measuring and reporting diversions continues. MBK and MWD continue to participate in the Consortium and will provide feedback on the future development of this ACP as needed. The next Consortium meeting is scheduled for April 29, 2021.

The Chair asked for Public Comment. There being no one present wishing to address the Board of Trustees, the Public Comment session was closed. There being no one wishing to address the Board, and there being no further business to come before the Board, the meeting was adjourned.
